

**Title:**

Medically Integrated Oncology Pharmacy Practice – NCODA Tools & Resources

**Presenter:**

Michael Reff, RPh, MBA  
Founder & Executive Director | NCODA Inc.

**Abstract:**

The Medically Integrated Oncology Pharmacy Practice model, or MIP, has expanded in recent years. This model was developed by NCODA, a national oncology non-profit organization with membership across the country and around the world. During this session you will learn about the Medically Integrated Pharmacy model, the benefits it provides to cancer patients, resources available for diverse oncology teams, and how this model improves financial viability for cancer centers. Topics that will be discussed include a tailored pharmacy accreditation program, patient and caregiver educational resources, and much more.
